Project Site Visit Schedule – Lumpini Place Narathiwass-Chaopraya

2<sup>nd</sup> April 2015

Lumpini Place Narathiwass-Chaopraya is the first riverside project and one of large-scale projects of the Company with the value of 3,600 million THB. The project comprises three 29-story-high buildings with the total of 1,306 units. During the past eight years, this community is managed under “**Vibrant Community**” concept and is the pride of all parties involved, whether they be joint owners, residents, the Company and business alliances. At present, the value of the project has increased more than 30% as can be seen from the resale price. Many governmental and private agencies visit the project to learn more about community management under “**Vibrant Community**” concept. The Company has intensified the management of the community in order to upgrade it to be a “**Model Community.**” Lumpini Place Narathiwass-Chaopraya is one of the “Model Communities” that the Company and all those related are proud of. It will be our honor to show the stakeholders around the project.
